

# Innovative Success Enterprises

Empowering individuals and entrepreneurs to tap into their gifts and talents  
to solve their personal & professional problems, make more money & live empowered!

My name is Lillian Harrison and I help individuals and entrepreneurs tap into their innate gifts and talents, helping them to live empowered!

As a single parent that has survived a period of domestic violence (and more), I understand how helpless one can feel when trying to deal with everyday life and decisions and one's own emotions turmoil. It can leave you feeling beaten and hopeless; but I SURVIVED!. I made a decision that not only would I get through it (no matter what "it" was), but that I would also make a better life for me and my sons.

Today, I am the publisher of a small business magazine, the founder of a mastermind group and the President and CEO of Innovative Success Enterprises LLC, just to mention a few. Over the years I have explored and utilized my gifts and talents to provide for me and my sons and now to help others do that and more. I have worked with clients in many states throughout the U.S. and all successfully.

I would love the opportunity to speak to your participants to help inspire and motivate them to move beyond feelings of helplessness and hopelessness using their innate power and ability.

I can be reached at 800-932-6816 or via email at [info@innovativesuccessenterprises.com](mailto:info@innovativesuccessenterprises.com).

Warmly,

Lillian Harrison
